**SUMMARY JURISDICTION**

BEFORE MR. JUSTICE SNOWDEN  
THE "ROCKY MOUNTAIN" CASE

There are but two miserable villages on the eastern part of the island, have, without any notice, been bombarded and destroyed. In another female prison, or has been captured. At day of the work fortifying the place, and the soldiers at the same time, with effect to fire on the invaders, the Governor and his family, and the whole of the latter very considerably. The Government here are already making preparations for the reception of the United States army, the business may be considered. The special correspondent of the *Diario* evidently does not like the Cape, and appears to imagine that the United States will not be able to hold it. He writes, "that the telegraph has actually reached the Transitor."

Many need be expiated. The whole affair goes to a mystery up to this time, nothing being known than the fact that some have lost their equities in a most unaccountable way. The Vicary seems to be in earnest in the matter of suppressing opium dens. Several dissident wretches are wearing chains, or are in prison in particular houses as if a few days would end his career. — *Shanghai Courier* Correspondent.

Many boxes of letters are received at the Office not sealed, that is to say, the boxes fastened with sealing wax, but there is no impression of a seal.

The attention of boxholders is called to necessity of carefully sealing such boxes as more recognizably seal, and of sending a Catalogue book or receipt with them. The omission of the latter precaution leaves a doubt as to whether the duplicate of the box ever reached the Post Office; the omission of the former, as whether part of them might not have been extracted for the sake of the Postage Stamps.
